The Ginsburg's opened the doors of their home over 40 years ago

Ohel Sarah's founders - Mr and Mrs Ginsburg knew of many families with disabled children who had little support. They were moved to help and improve the lives of these children.

The Ginsburg's provided a nurturing and loving environment, first in their own living room and over the years they opened schools, day centres and apartments.

And this amazing couple spent the whole of their lives dedicated to helping those with special needs.

We are inspired and motivated by their selfless love and generosity.

COMPASSION EQUAL OPPORTUNITIES INDEPENDENCE

These values which drove the Ginsburg's to establish Ohel Sarah, guide us now and into the future.

We continue to innovate with the changing times. We plan to build Israel's first centre specifically for elderly disabled people, we support 7 married couples and have created our own communication system for use on iPads in our 4 schools and 28 apartments.

This Rosh Hashanah, please help us continue to help others.
